1. Overview of Operating Results

(1) Overview of operating results for the fiscal year under review

Suntory Beverage & Food Limited Group (the Group) has set the achievement of high-quality growth as its target in order to realize sustainable business growth and enhancement of corporate value as a truly global beverage enterprise. Under the medium-term plan formulated in the fiscal year under review, the Group has established the four important strategic themes of “brand strategy,” “business structural transformation,” “DEI (diversity, equity and inclusion)” and “sustainability,” and is actively developing business in line with these themes.

In the fiscal year under review, amid an external environment that is expected to remain challenging, the Group will conduct aggressive marketing activities centered around the core brands while enhancing revenue growth management (RGM) activities, aiming to achieve further revenue growth in all segments.

In 2024, while the external environment was expected to remain challenging, the Group aimed to achieve further revenue growth in all segments through aggressive marketing activities centered on core brands and enhanced revenue growth management (RGM) activities. The Group steadily grasped the demand situation in key countries and continued its focused activities for core brands in all segments, resulting in record revenue and operating income.

Revenue increased in all segments due to the contribution of RGM activities, including price revisions in Japan, as well as the thorough implementation of focused activities for core brands in all segments.

Operating income increased in all segments, with Japan and Asia Pacific leading the overall increase as the effect of revenue growth and strict cost management offset the impact of high raw material prices and currency fluctuations in line with the expectations, as well as the impact of the macroeconomic slowdown in Europe.

For the operating results of the fiscal year under review, the Group reported consolidated revenue of ¥1,696.8 billion, up 6.6% year on year and up 2.7% on a currency neutral basis. Consolidated operating income was ¥160.2 billion, up 13.1% year on year and up 7.1% on a currency neutral basis. Profit for the year attributable to owners of the Company was ¥93.5 billion, up 13.0% year on year and up 7.8% on a currency neutral basis.

Results by segment are described below.

< Japan business >

The beverage market remained at the same level as the previous fiscal year (based on the Company’s own estimates), despite the impact of price revisions, partly due to the effect of the extreme heat wave.

Our sales volume was slightly lower than the previous fiscal year despite the continued strengthening of focused activities for core brands, new product launches, and increased marketing activities, due to the impact of price revisions and other factors.

By brand, we continued to implement a variety of marketing activities for *Suntory Tennensui* amid steady demand. *The Kiritto Fruit series* and *Special Lemon Squash* continued to perform well, and 1L PET bottle products in renewed containers were also strong, resulting in a record sales volume. For *BOSS*, total sales volume of the brand was down from the previous fiscal year, despite the continued good performance of the *Craft BOSS series*, *Amakunai Italiano*. For *Iyemon*, sales volume was down from the previous fiscal year as the unsweetened tea market was significantly impacted by price revisions, but both *Iyemon Koi Aji* (food with functional claims) and *Tokucha* continued to perform well.

Revenue increased due to the effect of price revisions and an improved product size mix.

Segment profit increased due to revenue growth from prioritized activities for brands and each channel, the impact of high raw material prices and currency fluctuations remaining in line with the expectations, and strict cost management.

The Japan business reported revenue of ¥731.8 billion, up 3.3% year on year, and segment profit of ¥49.1 billion, up 21.3% year on year.

< Asia Pacific business >

In Asia Pacific, both revenue and segment profit increased due to a market recovery and our continued efforts to strengthen marketing activities, particularly in Thailand (beverage and health supplement businesses) and Vietnam (beverage business).

Revenue increased due to growth in sales volume in key businesses.

Segment profit increased due to the effect of higher revenue and strengthened marketing activities.

In the beverage business, Vietnam recorded revenue growth as the core brands *PEPSI* and *Aquafina* continued to perform well. Thailand reported revenue growth driven by strong sales of *PEPSI* and *TEA+*. In Oceania, sales volume increased year on year as a result of continued efforts to strengthen marketing activities for *V*, our core energy drink brand, leading to revenue growth.

In the health supplement business, *BRAND'S Essence of Chicken* maintained its recovery trend due to improved market conditions, including inbound demand, as well as renewed communication and enhanced marketing activities, and sales volume of *BRAND'S Bird's Nest* increased significantly year on year, contributing to revenue growth.

The Asia Pacific business reported revenue of ¥402.0 billion, up 8.2% year on year and up 3.5% on a currency neutral basis. Segment profit was ¥45.4 billion, up 5.4% year on year and up 1.4% on a currency neutral basis.

< Europe business >

Revenue increased on a currency neutral basis due in part to both continued strengthening of focused activities for core brands and RGM activities including price revisions, despite soft consumer spending, intensified competition and unstable weather conditions in key countries.

Segment profit increased due to strict cost management, supply chain improvement in the UK, and other factors.

In France, revenue decreased due to a drop in demand as a result of lower consumption trends caused by prolonged inflation, unfavorable weather conditions and other factors, although sales volume of the mainstay product *Oasis* was higher than the previous fiscal year. In the UK, *Lucozade* sales volume fell below the previous fiscal year's level due to the impact of product supply shortages in the second quarter, but have since recovered, resulting in revenue growth. In Spain, revenue decreased as a result of lower sales volume than the previous fiscal year due to a slowdown in market conditions.

The Europe business reported revenue of ¥368.1 billion, up 8.5% year on year and up 0.0% on a currency neutral basis. Segment profit was ¥60.4 billion, up 16.7% year on year and up 7.0% on a currency neutral basis.

< Americas business >

In the Americas, we increased promotional activities in both the core carbonated beverage category and the non-carbonated beverage category.

Revenue increased due in part to RGM activities, including price revisions.

Segment profit increased due to higher revenue, which offset the impact of rising raw material, logistics, and labor costs.

The Americas business reported revenue of ¥194.8 billion, up 12.7% year on year and up 4.5% on a currency neutral basis. Segment profit was ¥23.7 billion, up 12.9% year on year and up 4.7% on a currency neutral basis.

(2) Overview of financial position for the fiscal year under review

Total assets as at December 31, 2024 stood at ¥2,058.0 billion, an increase of ¥145.6 billion compared to December 31, 2023. The main factor was an increase in trade and other receivables and property, plant and equipment, in addition to the depreciation of key currencies against the yen compared to the end of the previous fiscal year.

Total liabilities stood at ¥742.8 billion, an increase of ¥15.4 billion compared to December 31, 2023. This was due in part to an increase in trade and other payables, in addition to the depreciation of key currencies against the yen compared to the end of the previous fiscal year despite a decrease of bonds and borrowings.

Total equity stood at ¥1,315.3 billion, an increase of ¥130.3 billion compared to December 31, 2023, due in part to an increase in other components of equity because of the depreciation of key currencies against the yen compared to the end of the previous fiscal year and retained earnings.

As a result of the above, ratio of equity attributable to owners of the Company to total assets was 58.8% and equity attributable to owners of the Company per share was ¥3,914.53.

(3) Overview of cash flows for the fiscal year under review

Net cash outflow from investing activities was ¥101.3 billion, an increase of ¥23.5 billion compared to the previous fiscal year. This was mainly the result of payments for property, plant and equipment and intangible assets of ¥108.3 billion.

Net cash outflow from financing activities was ¥112.0 billion, a decrease of ¥35.0 billion compared to the previous fiscal year. This was mainly the result of dividends paid of ¥49.1 billion, repayments of long-term borrowings of ¥59.0 billion, and redemption of bonds of ¥35.0 billion.

(2) Information on details of significant accounting estimates relating to the identified items

The Company estimates recoverable amounts for impairment testing on goodwill and intangible assets with indefinite useful lives.

The recoverable amount is calculated as the discounted present value of estimated future cash flows primarily based on the long-term growth rates in the business plan and after the applicable period of the business plan.

The business plan used for impairment testing is formulated based on not only the growth rate of the beverages market having an impact on future revenue and operating income, and the effect of soaring raw material and energy prices, but also estimates of the effects of the sales strategies for each brand, and the sales and promotion strategies for each sales channel, such as off-premises and on-premises channels. Moreover, the growth rate is determined by taking into consideration the long-term average growth rate in the markets or countries to which these cash-generating units and groups of cash-generating units belong. If they differ from the actual results, it may impact the business performance and other indicators.
